Revenue & Growth: Monetization Programs, Ads Platform Optimization, Marketplace Expansion

Domain: E-Commerce, Digital Advertising, Fraud & Risk, Customer Experience Platforms

PROFESSIONAL EXPERIENCE

Amazon – Stores Customer Service (Product & Tech) Jun 2021 – Present

Senior Program Manager, APAC & Worldwide | Bengaluru, India

- Owned Amazon CS Self-Service & Automation programs Worldwide, impacting 300M+ customer interactions annually.
- Delivered **2M+ contact reduction** (2024–2025) through AI-driven CX automation, generating $1.9M in cost savings (~₹15.8 Cr annual impact).
- Partnered with Senior Leadership across Product and Engineering to define roadmap priorities and govern delivery across 6+ APAC marketplaces.
- Enabled 25+ business launches across AU and SG, contributing to **$117M OPS impact** in 2023 through structured launch readiness and UAT governance.
- Provided Technical Program Management support for WhatsApp Transactional Notifications launches across IN, and EU stores, driving requirements definition, managing end-to-end delivery, aligning tech dependencies, mitigating risks, and coordinating with Product, Legal, Compliance, and Engineering.
- Owned end-to-end launch of Dynamic DYK (contextual self-help content based on order status), defining CX across all states, creating 80+ DYK cards, and executing JSON builds. Resolved bugs and independently delivered **~760K CR (~$722K savings)** with zero tech dependency.
- Built automated OP tracking dashboard eliminating **168 hrs** of manual work annually (2 hrs × 7 PMs/month), enabling real-time CR visibility and proactive sprint planning.
- Identified accessibility gap in DYK content, built voiceover solution using Amazon Polly, saving **₹3.5M in vendor costs** and delivering ~80K CR (~$76K) at zero external spend.

Amazon – India Advertising Feb 2017 – Jun 2021

Senior Account Manager – Display Advertising | Bengaluru, India

- In 2021, managed portfolio delivering **INR 65M revenue** (+31% YoY) across 110 campaigns and 32 top softlines advertisers in Luggage, Handbags and Shoes.
- Improved **ROAS by 33%** through data-driven optimization of targeting, creatives, and landing pages using A/B experimentation.
- Developed Segment Adoption Tracker to monitor usage of 400+ targeting segments, identified under-utilised ones, and drove AM education and category-aligned targeting; increased new segment adoption by **37% in 3 months**, and developed playbooks reducing ops effort by 33%.
- Led QBRs with C-suite stakeholders; partnered with Ad Tech and Analytics teams for tailored performance solutions.

Amazon – Transaction Risk Management Services Jun 2013 – Feb 2017

Senior Risk Investigator | Acting Team Lead | Bengaluru, India

- Led fraud prevention through deep-dive investigations, trend analysis, Internet verification and root cause identification across high-value transaction queues.
- Managed **21 investigators**; improved productivity through process standardization, SOP development, and coaching.
- Reduced fraud chargebacks to **31.7%**; selected for onsite assignment at Amazon Development Centre, Cape Town for international site ramp-up.

Flipkart Jun 2012 – Nov 2012

Catalogue Specialist

- Managed catalog operations, content quality, and publishing workflows for marketplace listings, ensuring data accuracy and timely product launches.

Aditya Birla Minacs (Apple iTunes Support) Oct 2010 – Nov 2011

Technical Support Advisor – Global

- Provided global technical and billing support for Apple iTunes customers, resolving account, download, and configuration issues with high CSAT scores.

KEY ACHIEVEMENTS AT A GLANCE

- $1.9M cost savings (~₹15.8 Cr) through CX automation; 2M+ contacts deflected in 12 months
- $117M OPS impact from 25+ marketplace launches across AU & SG (2023)
- INR 65M revenue managed with 31% YoY growth in Amazon India Advertising
- 33% ROAS improvement through data-driven campaign optimization across 110 campaigns
- 37% increase in targeting segment adoption via self-built analytics tool (Segment Adoption Tracker)
- Completed international onsite assignment at Amazon Cape Town for new site ramp-up

EDUCATION

Executive MBA – Indian Institute of Management Kozhikode (IIM-K) 2018 – 2020

B.Tech, Electrical & Electronics Engineering – CUSAT (College of Engineering, Trikaripur) 2006 – 2010

CERTIFICATIONS & ADDITIONAL

- Actively working with Visual Studio Code for scripting, data processing, and workflow automation
- Proficient in Kiro (AI-powered IDE by AWS) for AI-assisted program planning and automation workflows
- Familiar with Generative AI tools (Amazon Q, ChatGPT, Copilot) for productivity and program documentation.
