Domain: E-Commerce, Digital Advertising, Fraud & Risk, Customer Experience Platforms

PROFESSIONAL EXPERIENCE

Amazon – Stores Customer Service (Product & Tech)

Jun 2021 – Present

Senior Program Manager, APAC & Worldwide | Bengaluru, India

- Own end-to-end program strategy and execution for APAC CS Self-Service and Automation across IN, AU, SG, JP, CN, and Middle East, directly impacting 100M+ customer interactions annually.
- Delivered **2M+ contact reduction** (2024–2025) through AI-driven CX automation and deflection initiatives, generating $1.9M in cost savings, equivalent to ~₹15.8 Cr annual impact.
- Partnered with Senior leaderships across Product and Engineering to define roadmap priorities, sequence launches, and govern end-to-end delivery across 6+ APAC marketplaces.
- Enabled 25+ marketplace launches across AU and SG, contributing to a **$117M OPS impact** in 2023 through structured launch readiness, UAT governance, and post-launch performance tracking.
- Owned the WhatsApp Transactional Notifications launch in APAC, coordinating across Product, Legal, Compliance, and Engineering teams.
- Established program governance frameworks, risk mitigation playbooks, and executive reporting mechanisms consumed by Senior Leadership (L8+).
- Managed cross-functional dependencies across Product, TPM, SDE, Operations, and regional business teams, reducing launch delays by standardizing dependency tracking and escalation protocols.
- Drove CS Productivity initiatives improving agent efficiency metrics, contributing to measurable reduction in Average Handle Time (AHT) across WW operations.

Amazon – India Advertising

Feb 2017 – Jun 2021

Senior Account Manager – Display Advertising | Bengaluru, India

- Owned end-to-end display advertising programs for 32 enterprise advertisers, managing a portfolio delivering **INR 65M revenue** (+31% YoY growth) across 110 campaigns.

- Improved **ROAS by 33%** through data-driven optimization of targeting strategy, creatives, and landing page performance using A/B experimentation and analytics.
- Built the Segment Adoption Tracker, an internal analytics tool that increased new targeting segment adoption by **37% within 3 months**, adopted across the India Ads team.
- Developed category playbooks used in brand pitches, reducing operational effort by 33% and improving campaign launch readiness across the team.
- Led Quarterly Business Reviews (QBRs) with C-suite and senior client stakeholders, building long-term category growth strategies aligned to advertiser KPIs.
- Partnered with Ad Tech, Product, and Analytics teams to design tailored performance solutions, bridging the gap between technical capabilities and advertiser business goals.

Amazon – Transaction Risk Management Services
Jun 2013 – Feb 2017

Senior Risk Investigator | Acting Team Lead | Bengaluru, India

- Led fraud prevention and risk analysis through deep-dive investigations, trend analysis, and root cause identification across high-value transaction queues.
- Managed a team of **21 investigators** as Acting Team Lead; improved team productivity and quality metrics through process standardization, SOP development, and structured coaching.
- Drove chargeback reduction program, lowering fraud chargebacks to 31.7% by introducing defect tracking dashboards and systematic control mechanisms.
- Selected for onsite training and mentoring at Amazon Development Centre, **Cape Town**, supporting new site ramp-up and knowledge transfer for international operations.

Flipkart
Jun 2012 – Nov 2012

Catalogue Specialist

- Managed catalog operations, content quality, and publishing workflows for marketplace listings, ensuring data accuracy and timely product launches.

Aditya Birla Minacs (Apple iTunes Support)
Oct 2010 – Nov 2011

Technical Support Advisor – Global

- Provided global technical and billing support for Apple iTunes customers, resolving account, download, and configuration issues with high CSAT scores.

KEY ACHIEVEMENTS AT A GLANCE

- $1.9M cost savings (~₹15.8 Cr) through CX automation; 2M+ contacts deflected in 12 months
- $117M OPS impact from 25+ marketplace launches across AU & SG (2023)
- INR 65M revenue managed with 31% YoY growth in Amazon India Advertising
- 33% ROAS improvement through data-driven campaign optimization across 110 campaigns
- 37% increase in targeting segment adoption via self-built analytics tool (Segment Adoption Tracker)
- Selected for international onsite assignment at Amazon Cape Town for new site ramp-up

EDUCATION

Executive MBA – Indian Institute of Management Kozhikode (IIM-K) 2018 – 2020

B.Tech, Electrical & Electronics Engineering – CUSAT (College of Engineering, Trikaripur) 2006 – 2010

CERTIFICATIONS & ADDITIONAL

- Actively working with Visual Studio Code for scripting, data processing, and workflow automation
- Proficient in Kiro (AI-powered IDE by AWS) for AI-assisted program planning and automation workflows
- Familiar with Generative AI tools (Amazon Q, ChatGPT, Copilot) for productivity and program documentation.
